

## Did You Catch What ATC Said?

Air traffic controllers provide a special service to make VFR/IFR flights safer. Now you have an opportunity to meet these controllers and put a face with the voice.

In this discussion, pilots will interact with local controllers working in various ATC roles and sectors. Brad Finch from Midland International will discuss the various services available to pilots and how proper phraseology, rules, procedures, and professionalism impacts General Aviation. You will learn some tips on how to operate better within the National Airspace System to make your next flight safer and more efficient.

This is a great opportunity to get your ATC questions answered!

**Directions:** Midland International Airport terminal, 3rd floor.

### Event Details

**Tue, Aug 16, 2016 - 19:00 CDT**

**Midland International Airport**
